

NEW YORK DIVISION:  
2 GLENSHAW STREET  
ORANGEBURG, NEW YORK

TEXAS DIVISION:  
1212 ELM STREET  
SULPHUR SPRINGS, TEXAS

To Whom It May Concern:

We are pleased to provide regulatory information for the following product manufactured by Base Plastics: Elasticene, Linear Low Density, Hexene

These products complies with FDA regulation 21 CFR 177.1520 (Olefin polymers), paragraphs (c)3.1a and (c)3.2a, and may be used as articles or components of articles intended for use in contact with food, including use in articles used for packing or holding food during cooking.

This polymer grade is in compliance with the relevant heavy metals and flame retardant requirements of the following regulation:

***- EU 2002/95/EC Directive (Article 4) Prevention on Restriction of the use of certain hazardous substances in electrical and electronic equipment, as amended by the Commission decision of 18 August 2005.***

Indeed, the following substances, Heavy metals: Lead, Cadmium, Mercury & hexavalent Chromium and Flame retardants: Polybrominated biphenyls (PBB) & Polybrominated diphenyl ethers (PBDE) have not been "*intentionally introduced*" in the above polymer grade and as a result their concentration does not exceed 0.1% by weight for Lead, Mercury, hexavalent Chromium, Polybrominated biphenyls (PBB) & Polybrominated diphenyl ethers (PBDE) and 0.01% for Cadmium.

The fact that these substances are not intentionally introduced into this polymer grade does not exclude that trace levels of these substances may be unintentionally present or may result from the specific characteristics of the raw materials and of the polymerization process used for the manufacturing of the above polymer grade.

This document is valid for one year after the date of issuance, or until a change in the relevant legislation or regulation, if this occurs sooner than one year.

Sincerely yours,

Joseph Rosenberg  
VP, Sales
